PROFESSIONAL SUMMARY

Software Developer with production experience in React/Node.js and MongoDB/REST API design. Delivered 5+ end-to-end applications serving 50+ users with a 40% engagement lift. Alongside software development, I have 6+ years of independent experience analyzing Forex, commodities, and global currency markets.

INTERNSHIPS

Christ University, Bangalore

Jan 2026 – May 2026

Blockchain Developer Intern

- Fine-tuned EfficientNetB0 on 1,620 agricultural images, achieving 91.4% validation accuracy for AI-powered organic product verification.
- Deployed Solidity smart contracts with SHA-256 hashing on Hardhat to create tamper-proof, immutable product authenticity records on-chain.
- Built end-to-end platform (React · Node.js · Express · MongoDB) enabling real-time image classification, verification tracking, and secure data management.

FINANCIAL MARKETS

Independent Trader | Forex, Commodities & Global Markets

Jan 2020 – Present

- Independently analyzed and traded Forex, commodities, and global currency markets for over 6 years.
- Developed strong knowledge of technical analysis, risk management, and macroeconomic factors influencing financial markets.

PROJECTS

Trackless - Privacy-First Web Analytics | Node.js · Express · MongoDB · React · Tailwind CSS [\[GitHub Repo\]](#)

Sep 2025 – Present

- Engineered a lightweight analytics platform serving 50+ client websites, processing 1,000+ daily events via a JS snippet, REST API, and developer dashboard.
- Designed as an ethical alternative to Google Analytics — zero cookies, full data ownership, built for developer adoption.

Mail Mind - AI Email Classification | Next.js 14 · LangChain.js · OpenAI GPT-4o · Gmail API [\[GitHub Repo\]](#)

Mar 2025 – Apr 2025

- Built an intelligent Gmail classifier processing 1,000+ emails/day, reducing manual inbox management by 60% and lifting organisation accuracy to 90%.
- Integrated GPT-4o via LangChain.js with Gmail API to enable context-aware batch classification of 50+ emails per run.

SKILLS

Technical: C++, JavaScript, SQL, MERN Stack, REST APIs, AWS (EC2, VPC, S3), Git, GitHub, MongoDB Atlas

Tools & Technologies: Postman, Figma, Solidity, Hardhat, EfficientNetB0 (Transfer Learning & Fine-tuning)

Domain: Forex Markets, Commodities Trading, Technical Analysis, Risk Management

Languages: English — Proficient (C1) | Hindi — Proficient | Kannada — Fluent | Konkani — Fluent | German — Beginner (A1)

CERTIFICATIONS & TRAINING

• AWS Academy Graduate – Cloud Foundations — AWS Academy

Sep 2025

• Back-End Frameworks & APIs — L&T Edutech

May 2024

CO - CURRICULAR & LEADERSHIP

Dance Team, CHRIST University, Bengaluru

2023 – Present

Choreographer & Team Lead

- Choreographed university-wide Dance Day production (45+ performers); led 2 competitive teams (13+ members) winning multiple inter-college cultural fests on and off campus.

EDUCATION

CHRIST (Deemed to be University), Bengaluru

Jul 2023 – May 2027 (Expected)

BCA (Honours) | CGPA: 7.5 / 10.0

Christ King Pre-University College, Karkala

Class XII: Mar 2023 · Class X: Mar 2021

Class XII — 93.3% | Class X — 87.36%
