PROFESSIONAL SUMMARY

Enthusiastic and tech-driven BCA student with a solid foundation in programming, database management, software development, 3D Modelling and Animations with a keen interest in creating games for AR/VR experiences using Unity and Unreal Engine. Eager to apply technical knowledge in real-world scenarios through an internship, while gaining practical exposure to IT operations and development practices. Known for adaptability, teamwork, and a continuous learning mindset, with a strong passion for emerging technologies.

WORK EXPERIENCE & INTERNSHIPS

Bharuva Solutions Pvt. Ltd., Haridwar

May 2024 – Jul 2024

Summer Intern – Android Applications Development

- Designed and developed an ERP mobile application tailored for internal company operations
- using Kotlin, XML, and Android Studio.
- Utilized Docker for containerized deployment and environment consistency across development and production.
- Delivered a functional ERP prototype that streamlined company workflows and data handling.

HighApe Pvt. Ltd., Bengaluru

Nov 2025 – March 2026

Business Development Intern – Design and Implementation of a Scalable Event Organizer CRM System

- Built a scalable event organizer CRM System.
- The resulting system is built upon a highly robust full-stack architecture utilizing React and Next.js for a responsive frontend, Node.js RESTful APIs for backend logic, and a PostgreSQL database managed via the Prisma Object-Relational Mapping (ORM) tool.

PROJECTS

CHRIST Metis Lab Access & Management Portal – Python, HTML, CSS, JS, SQLite

July 2025 – Sept 2025

- Developed a website portal, which allows user registration and login consisting of college students and staff as well as allowing external users to also register and access the Lab in our college.

Built ESP-32 Marauder (DIY) – Python, Arduino.

March 2025 – Jan 2025

- Built an ESP-32 Marauder, using Embedded Systems. Allowing me to scan wireless networks, Bluetooth devices and intercept them.
