PROFESSIONAL SUMMARY

BCA (Honours) student with experience in developing scalable software solutions using Python, SvelteKit, SQL, and modern web technologies across startup and enterprise environments. Demonstrated ability to solve complex problems, collaborate with cross-functional teams, and deliver production-ready applications through the full software development lifecycle. Passionate about leveraging technology, analytical thinking, and data-driven decision-making to build reliable systems and improve business operations.

INTERNSHIP EXPERIENCE

Nyma Health and Wellness Pvt. Ltd., Bengaluru

Jan 2026 - Present

Growth Engineer Intern

- Developed and scaled a women's wellness platform, now serving 10,000+ active users by delivering production-ready features and improving user experience solutions by collaborating across engineering, product, and design teams.
- Worked directly with the founding team on product development, feature implementation, A/B testing, and data-driven iterations to improve onboarding, engagement, and user retention.

Wipro Infrastructure Engineering, Bengaluru

May 2024- June 2024

Web Development Intern

- Engineered a web-based internship recruitment portal using React, HTML5, CSS3, and JavaScript, digitizing the application workflow and enhancing the candidate experience
- Analyzed production and unit-level operational data using Microsoft Excel, generating reports to support performance tracking.

PROJECTS

CycleBae – Women's AI Wellness Application | SvelteKit, TypeScript, JavaScript, Tailwind CSS

Jan 2026 – Present

- Implemented 3+ product features, supporting a women's wellness application contributing to an increase in retention by 2.3%
- Engineered reusable frontend components, reducing UI inconsistencies and improving responsiveness.
- Debugged and resolved 10+ UI defects, streamlining onboarding workflows and enhancing overall user engagement and installs

Chum Xperiences –Corporate Events Platform| React, TypeScript, Node.js, Vercel

Aug 2025 – Dec 2025

- Digitized the company's lead generation process by transforming cold-calling workflows into a centralized online inquiry platform.
- Increased qualified online inquiries by 40% through website optimization and an improved customer acquisition experience.
