PROFESSIONAL SUMMARY

Software Engineer experienced in system design, scalability, and high-performance architectures. Experienced in delivering end-to-end products from architecture to deployment with a focus on clean, efficient solutions. Proven ability to simplify complex problems and build fast, reliable systems, with growing expertise in AI-driven and distributed systems.

INTERNSHIP EXPERIENCE

Nexerahive, Bengaluru

Oct 2025– June 2026

Founding Software Engineer

- Primary engineer who architected and built an AI-powered commerce automation platform, designing a modular multi-agent system with LLMs and third-party integrations.
- Led pilot deployments for 5+ enterprise customers, translating feedback into product improvements and workflow automation.

Better Software, Bengaluru/Jaipur | Remote

Nov 2025 – Feb 2026

Associate Software Engineer

- Developed cross-platform mobile applications using React Native and TypeScript for Android and iOS.
- Optimized application performance through debugging, testing, and iterative feature enhancements.

JPMorganChase, Forage | Remote

Jan 2026 – Feb 2026

Software Engineer Virtual Experience

- Built a Spring Boot microservice using Apache Kafka, Spring Data JPA, and SQL for transaction processing.
- Integrated REST APIs and validated end-to-end workflows through automated testing and debugging.

NullClass, Bengaluru

May 2024 – Jun 2024

Full Stack Intern

- Developed responsive web applications using React.js, reusable UI components, and REST API integrations.
- Improved performance through component optimization, efficient state management, and frontend enhancements.

PROJECTS

AURA OS | C++, TypeScript, AI

Ongoing - 2026

- Developing a Windows-native AI desktop environment with modular architecture, intelligent automation, and adaptive workflows powered by AI orchestration.

Cortex | TypeScript, AI, Distributed Systems

Nov 2025 – Jan 2026

- Built cognitive infrastructure enabling persistent AI agents through identity continuity, distilled memory, and failure recovery across multi-agent workflows.

Hands2Words | PyTorch, MediaPipe, OpenCV

Oct 2024 – Mar 2025

- Developed an AI-powered Indian Sign Language translator using computer vision and deep learning to convert real-time hand gestures into text.

OmniVerse Market API | FastAPI, Python

Nov 2025 – Jan 2026

- Built a scalable FastAPI backend to aggregate, normalize, and expose prediction market data through standardized REST APIs.

Capacity Compass | React, TypeScript, FastAPI

Dec 2025 – Feb 2026

- Designed an AI-powered workload forecasting platform that predicts capacity risks and recommends resource allocation through interactive dashboards.

SKILLS

Technical: Python, TypeScript, JavaScript, Java, React, Next.js, Node.js, Express.js, PostgreSQL, Redis, Docker, Git, AWS

Domain: System Design, Backend Development, REST APIs, AI/ML, Distributed Systems, Computer Vision, Mobile Application Development

Soft Skills: Leadership, Problem Solving, Communication, Cross-functional Collaboration, Critical Thinking

Languages: English - Proficient (C1), Telugu - Native, Hindi - Fluent, German - Basic (A1)

CERTIFICATIONS & TRAINING

- *Ethical Hacking - L&T EduTech*
- *Python, Kotlin Programming - Infosys Springboard*
- *Introduction to Algorithms - edX*
- *Python, AI/ML, Advanced Databases - Udemy*
- *AWS Academy, Foundations - AWS*
- *Cloud Skills Boost, Git Foundations, Data Analytics - Google*

CO-CURRICULAR & LEADERSHIP

AfterHours Productions, CHRIST University, Bengaluru

June 2024 - June 2025

Overall Head

- Spearheaded media, marketing, and production operations, leading a cross-functional team to deliver campaigns on time and within budget, driving audience engagement.

EDUCATION

CHRIST (Deemed to be University), Bengaluru

Jul 2023 – May 2027

Bachelor of Computer Applications (Honours) | GPA: 3.4/4.0
