PROFESSIONAL SUMMARY

Data-driven Business Analytics professional with hands-on experience in supply chain automation, logistics reporting, and operational efficiency. Skilled in writing efficient SQL queries, leveraging Python for advanced statistical analysis, and building automated dashboards in Power BI. Proven track record of extracting complex data from multiple sources, developing forecasting models, and partnering with cross-functional teams to translate data into actionable insights for high-growth environments.

INTERNSHIP EXPERIENCE

DSV - Global Transport & Logistics, Dubai

Oct 2025 – Feb 2026

Software Development & Power Platform Intern

- Engineered a custom Power Platform Overtime Request Portal (Apps, Automate, BI) that eliminated 100% of manual allocation errors.
- Reduced processing time from minutes to seconds by optimizing workflows and developing real-time KPI trackers to monitor operational metrics.
- Partnered closely with Operations and Supply Chain leads to deploy the scalable portal across 3+ distinct departments, ensuring high availability for a daily active user base of over 200+ logistics personnel.

Estée Lauder Companies, Dubai

May 2024 – Jun 2024

AI & Market Research Intern

- Analyzed large qualitative datasets regarding AI adoption across consumer goods organizations to identify market trends and operational improvement opportunities.
- Collaborated with cross-functional teams to synthesize complex business frameworks into actionable insights to support business planning.

PROJECTS

Supply Chain Procurement & Requisition Automation

Jan 2025 – Mar 2025

- Automated end-to-end procurement workflows by extracting critical parameters from maritime requisitions using n8n and AI nodes.
- Extracted, cleaned, and processed unstructured supply chain data from multiple sources, ensuring data accuracy and consistency for operational review.

Water Scarcity Dashboard | AI, Python, Full Stack Development

Oct 2025 – Dec 2025

- Built an AI-powered predictive dashboard processing over 10,000+ regional data points to monitor water levels and forecast shortages with 85%+ model accuracy, tailored for rural farmers and urban users.

SKILLS

Programming & Automation: Python, n8n, AI workflow automation, Microsoft Power Platform (Power Automate, Power Apps)

Core Competencies: Supply Chain & Operations Analytics, Root Cause Analysis, Stakeholder Management, KPI Tracking, Process Automation.

Databases & Cloud: MySQL, NoSQL, Firebase

Languages: English — Native | Malayalam — Native

CERTIFICATIONS & TRAINING

• **Data Structures and Algorithms using Java** — Infosys Springboard

Feb 2026

• **Big Data 101** — Infosys Springboard

Mar 2025

• **TechA Machine Learning with Python Certification** — Infosys Springboard

Nov 2025

CO-CURRICULAR & LEADERSHIP

SWO (Student Welfare Office), CHRIST University, Bengaluru

Jun 2023 – Present

Media Lead

- Led a student body of 200+ volunteers and organized 20+ major university events

Computer Science Association (Samagra), CHRIST University, Bengaluru

Apr 2024 – May 2025

Volunteer & Media Specialist

- Volunteered at 10+ departmental events and represented the university at inter-collegiate technical and cultural events.

ACHIEVEMENTS & AWARDS

• **1st Place – Blossoms Photography Challenge** — Christ University (45+ Contestants)

Nov 2025

• **1st Place – Darpan Photography Challenge** — Christ University (70+ Contestants)

Jul 2025

EDUCATION

CHRIST (Deemed to be University), Bengaluru

Jun 2023 – May 2027 (Expected)

Bachelor of Computer Applications (Hons) | CGPA: 8.12 / 10

Primus Private School, Dubai | CBSE

Apr 2023

Class XII — Commerce with Computer Science | 70.6%

Primus Private School, Dubai | CBSE

Apr 2021

Class X — 74.4%
