PROFESSIONAL SUMMARY

BCA(Honors) student with experience in Full Stack Development and Software Development. Demonstrated ability to independently build and deploy complex applications. Seeking a Full Stack Development Role in IT to deliver reliability.

INTERNSHIP EXPERIENCE

Amik Technologies, Noida (Remote)

Jan 2026 – Apr 2026

Full Stack Web Development & Testing Intern

- Optimized EV Charging Management Systems by overhauling React.js UI themes, implementing OCPI-based address validations, and enhancing dynamic forms and data exports.
- Managed real-time OCPP charger communication and REST APIs for session tracking, significantly reducing backend CPU utilization by resolving critical MySQL errors and optimizing payloads.
- Ensured transaction reliability by executing comprehensive testing (manual, regression, Postman API), diagnosing live production issues (Azure logs, WebSockets), and providing direct support for hardware faults and payment mismatches.

CHRIST (Deemed to be University)

Nov 2025 – Dec 2025

METIS Lab - Full Stack Web Development Intern

- Developed a full-stack academic resource management portal (React.js, Node.js, Express.js) featuring secure OTP authentication and role-based access for Students, Faculty, & Admins via Supabase.
- Built robust Express.js REST APIs to process requests, maintaining structured data integrity in PostgreSQL while validating endpoints and JWT implementations using Postman for secure system performance.
- Engineered automated NodeMailer workflows for real-time lab status updates and managed remote computational server access allocations utilizing secure MobaXterm session integrations.

NullClass Edutech (Remote)

Apr 2024 – May 2024

Full Stack Web Development Intern | Stack Overflow Clone

- Developed a responsive Stack Overflow clone (MERN stack) integrating dynamic UI theming based on multi-language support (6 languages) and conditional OTP verification (email/SMS).
- Engineered a robust security architecture including JWT authentication, a secure Nodemailer password recovery system, and a login tracking system capturing browser, OS, device type, and IP addresses.
- Implemented advanced authorization flows featuring time-based mobile access controls and browser-specific authentication logic to enhance platform security and user history auditing.

PROJECTS

VerdeX - Carbon Credit Trading Platform | React, Express, Supabase, Node.js

Jul 2025 – Sep 2025

- Developed full-stack carbon credit marketplace using React and Express with Supabase for real-time trading.
- Implemented dual-layer authentication with Supabase Auth and encrypted MPIN for secure transactions.
- Built an admin approval system to verify and manage carbon credit submissions before listing.
- Created an impact scoring algorithm to gamify user engagement and rank traders on a leaderboard.
- Integrated file upload functionality for verification documents using Supabase Storage with signed URLs.

Metanoia - University Event Registration | HTML5, CSS3, JS, Apps Script

Jul 2025 – Sep 2025

- Built a responsive event registration web app serving 7 different university events + dynamic form generation
- Integrated Google Apps Script API to store registration data from 200+ participants in Google Sheets
- Implemented real-time form validation using regex patterns and custom JavaScript
- Developed dynamic participant functionality that generates forms based on per-event min/max participant
- Created interactive retro-themed UI with sound effects, animations, and responsive design for mobile and PC
- Deployed event management system with URL-based routing and dynamic content loading for multiple event types.

SKILLS

Technical: Java, Python, C/C++, MySQL, PostgreSQL, JavaScript, HTML/CSS; React, Node.js, Flask, Streamlit, TailwindCSS; Git, AWS, Google Cloud Platform, VS Code, Visual Studio, Jupyter Notebook, Vercel, Azure DevOps.

Domain: Full Stack Web Development, Cloud Computing, Cyber Security, Mobile App Development, AIML.

Soft Skills: Active & Self Learning, Logical & Critical Thinking, Problem-Solving.

Languages: English, German, Kannada, Hindi, Marathi.

CERTIFICATIONS & TRAINING

• **Backend Frameworks and API** — L&T Edtech

May 2024

• **German - I** — NPTEL

Mar 2025

CO - CURRICULAR & LEADERSHIP

Samagra Computer Science Association, CHRIST University, Bengaluru

Jun 2024 – May 2025

Technical Associate

- Member of team of 40+ students; collaborated within a 10-member core team to organize various intra-college events and a national-level web development competition, serving on the event planning and PR team for the National Level IT Fest (Flux 2025).
- Provided Technical Support and delivered highly reliable software solutions like Metanoia for smooth functioning of the events.

ACHIEVEMENTS & AWARDS

- **1st Place – Inter College Web Development Competition** — CAIAS, Bengaluru (Team of 2, 15+ teams) *Sep 2024*
- **Best Project Award – Startathon 2024** — Department of Computer Science, CHRIST University (top project out of 8 submissions) *Sep 2024*
- **Merit Scholarship** – Rotary Club of Bangalore, Lavelle Road *2021 – Present*
- **Event Head – Murder Mystery in Metanoia 2024** — Christ University (50+ Participants) *Nov 2024*
- **Lead Organizer – Workshop on Portfolio Development** — Department of Computer Science, CHRIST University (60+ attendees) *Aug 2024*
- **Volunteer & Esports Merch Manager – Acer Predator League 2025** — Pheonix Mall of Asia, Bengaluru *Oct 2025*

EDUCATION

- CHRIST (Deemed to be University), Bengaluru** *Jul 2023 – May 2027 (Expected)*
BCA (Honours) | CGPA: X.X / 10.0
- M.E.S. KISHORA KENDRA PU COLLEGE, Bengaluru** *Sep 2020 – Jul 2022*
PCMC | DPUE | 85.8%
- St. Ann’s High School, Bengaluru | ICSE** *Class X: Apr 2020*
Class X — 93.5%
