PROFESSIONAL SUMMARY

Aspiring AI Engineer with a focus on Agentic AI and AI Engineering with hands-on experience building production-ready full-stack applications and leading cross-functional development teams. Strong foundation in Python, JavaScript, React, Node.js, machine learning, and data analysis, with a growing focus on designing intelligent, scalable AI systems. Passionate about combining software engineering principles with modern AI to build reliable, impactful applications. Seeking an AI Engineer role where I can contribute to end-to-end AI product development.

INTERNSHIP EXPERIENCE

OptInn Solutions, Bengaluru

Dec 2025 – Apr 2026

Full Stack Developer Intern

- Architected and developed a fully responsive corporate website using React, TypeScript, Vite, and GSAP, delivering complex scroll and layout animations.
- Engineered a feature-rich Resources Hub with real-time filtering, utilizing GSAP Flip for cinematic layout transitions.
- Integrated a Strapi CMS to enable non-technical management to control News and Careers sections independently.

TECHPLEMENT, Pune, India

Jun 2024 – Jul 2024

Full-Stack Development Intern — Team Lead

- Led a team of 7 developers to design, develop, and deploy production-ready Django and MERN stack web applications, delivering project milestones 5 days ahead of schedule.
- Fostered collaboration between cross-functional teams and stakeholders, resulting in a 15% improvement in delivery consistency.
- Demonstrated strong problem-solving skills, reducing issue resolution time by 20% and enhancing team productivity in a fast-paced startup environment.

PROJECTS

AI-Powered Personal Fitness Coach

Oct 2025 – Dec 2025

- Architected multi-dimensional data ingestion pipeline capturing 10+ biometric parameters, deployed LLM-based personalization engine using Google Gemini API generating structured JSON outputs for adaptive workout and macronutrient-optimized meal plans.
- Engineered hierarchical dietary classification system with region-specific cuisine ontology (North/South Indian sub-taxonomies) improving personalization granularity and cultural adherence by 30%.
- Implemented longitudinal analytics framework aggregating temporal engagement metrics (caloric compliance), built contextual intelligence module for predictive motivational interventions

JoinHands | React (TypeScript), Node.js, PostgreSQL (Supabase)

Mar 2025 – Sep 2025

- Engineered full stack NGO platform for onboarding NGOs.
- Built analytics dashboards (registrations, engagement, NGO KPIs) to guide decisions.
- Automated bulk certificate generation with custom templates and ZIP export.

SKILLS

Technical: React, TypeScript, Node.js, Express.js, PostgreSQL, MongoDB, SQL, Python, GSAP, Vite, Strapi CMS, Git/GitHub, AWS (EC2, S3, RDS), Figma, PowerBI, PyTorch, TensorFlow, FastAPI, scikit-learn, React.js, Node.js, Express.js

Domain: Artificial Intelligence, Machine Learning, Full-Stack Development, NLP, Recommendation Systems

Soft Skills: Analytical Thinking, Problem Solving, Research, Leadership, Cross-functional Collaboration, Fast Learning

Languages: English — Proficient (C1) | German — Intermediate (A2) | Hindi — Native

CERTIFICATIONS & TRAINING

- **Machine Learning Specialization** — DeepLearning.AI
- **Hands-on Supervised Machine Learning with Python** — Infosys Springboard
- **Data driven story telling and visualization** — L&T EduTech
- **Cloud Foundations** — AWS Academy Graduate

EDUCATION

CHRIST (Deemed to be University), Bengaluru

Jul 2023 – May 2027 (Expected)

BCA (Hons.) | 69.5%

Delhi Public School, Jodhpur | CBSE

Class XII: Apr 2021 · Class X: Apr 2019

Class XII — 83% | Class X — 79%
